[LinkedIn](#) · [Github](#) · [Portfolio](#)

A product designer and Computer Science student at Kibo School. Passionate about creating user-centered products, and eager to use my design and research skills to create meaningful experiences. Proficient in design Figma, and familiar with user research methods such as usability testing and user interviews.

EXPERIENCE

Outreach Ambassador Intern   **Apr 2023 - Jun 2023**
Kibo School, New York, NY

- Developed and executed outreach strategies by creating an online WhatsApp group for students to ask questions and provide prompt responses.
- Engaged social media influencers in the community to help spread the message about Kibo
- Created weekly polls to track the progress of applicants and personalize communication.
- Expanded Kibo's reach by effectively communicating the school's values and goals to a diverse audience.
- Coordinated events and presentations to raise awareness about Kibo's mission, programs, and services
- Followed up with potential students to show commitment and support throughout the enrollment process

UI/UX Designer   **Nov 2021 - Present**
GDSC Funaab, KIbo, Self-learning

- Developed user-centric UI/UX designs, ensuring see]amless and intuitive user experiences across multiple projects
- Collaborated with cross-functional teams to gather requirements, conduct user research, and create wireframes, prototypes, and visual designs.
- Utilized Figma and Figjam for UI/UX concept design and iteration. Stayed updated with industry trends through conscious self-learning, incorporating new techniques and technologies

3D Modeler   **Apr 2023 - Present**
The Federal University of Agriculture Abeokuta, Nigeria

- Applied PTC Creo knowledge to complete projects as part of the curriculum
- Complemented formal education by engaging in self-learning activities, such as online tutorials and personal projects, to further enhance PTC Creo's efficiency
- Created 3D models using PTC Creo

EDUCATION
